Spring 2006 Edition

Page 1

Welcome to Surge!!

Welcome to the Spring 2006 edition of *Surge!!* For those of you receiving it for the first time, *Surge!!* is the bi-yearly newsletter of the the Friends of Williamsburg Rowing (FWR), a qualified 501(c)(3) organization that was formed as a booster organization for the William and Mary Rowing Club (WMRC).

Since its inception, the mission of the FWR has grown to include furthering the sport of rowing in the Williamsburg/James City County area by supporting both WMRC and the Williamsburg Boat Club (WBC), which was established in 2003.

This issue of *Surge!!* contains updates from both WMRC and WBC, as well as the latest on FWR and what we are doing to support rowing and a boathouse in Williamsburg. Also, be sure and check out the Alumni Notes section to find out what W&M Rowers have been up to post graduation.

FWR Annual General Meeting

Since the last issue of *Surge!!*, FWR held its annual meeting in Williamsburg on December 17th. The meeting was attended by FWR officers, directors, and members, as well as representatives of both WMRC and WBC. At the meeting Will Cornock '05 was elected President, Christie Davis Ashton '00 was elected Vice President, Vicki Dyer '04 was reelected as Secretary, and Travis Moore '06 was elected as Treasurer.

FWR would like to thank Christie Davis Ashton, Pete Michaud, and Stan Lewis for their many years of outstanding service as officers of FWR. I look forward to working with them throughout the year as they all continue to serve as directors. On behalf of FWR, I would also like to congratulate Christie and her husband Bill on the birth of their first child: William (Liam) Davis Ashton, who was born on March 5th.

Thanks you all for your membership and support over the years. Hope you enjoy this issue of *Surge!!*

Will Cornock '05
President, Friends of Williamsburg Rowing

Equipment Storage Shed

FWR has just made the \$1015 down-payment on a Crutchman 12 foot by 18 foot barn-style shed for use by WMRC and WBC. The shed itself will be property of WMRC as the club will pay the remaining \$3,000, but this will be a major improvement for rowing in Williamsburg. The shed will mainly store oars, but will also have room for motor storage, tools and spare parts. This will help make both clubs equipment safer, cleaner and help it last far into the future.

Project Boathouse

All three organizations have been hard at work and have made significant progress this year towards making the boathouse at The Chickahominy Riverfront Park a reality. James City County Park Authority has given us a verbal green light on a boathouse with specifications to be determined.

So far this year FWR has raised almost \$800 specifically for the boathouse. While this may not seem like much, that's a significant amount over 4 months and all the capital we've already saved will really help move the project forward as plans come together for a major fundraising campaign and the design of the boathouse itself.

Members of WBC, WMRC, and FWR have visited two boathouses in Norfolk, VA and Charlottesville, VA to gather information and discover just what we will need and would like to build.

Send Us Your E-mail Address

We are continually updating our database to keep all past, current and future "Friends" informed on the happenings of rowing in the Williamsburg area. If you would like to receive future issues of *Surge!!* as well as other periodic updates by e-mail, please send an e-mail to vldyer@gmail.com.

Treasurer's Report

So far, so good. 2006 is off to a great start for FWR. We've seen record high donation levels as compared to the past few years. Thanks to an early membership drive we've started to bring in more money and build some momentum. We have doubled both our checking and savings account balances since last year's spring edition of *Surge!!*

So far in 2006, we have paid an additional \$1,000 off on our line of credit in addition to contributing \$300 in radios, supplies, and tools as well as over \$850 in direct cash to WMRC. FWR has also been able to make \$1,075 in direct cash contributions to WBC.

In an effort to aid both clubs, FWR agreed to make a \$1015 down payment on a shed for the rowing site at the Chickahominy Riverfront Park to be used by both WBC and WMRC for storage.

New this year is a different donation designation, the FWR Endowment. Donations received for this fund will go towards the purchase of long-term, income generating assets. The income earned by these assets will be used as undesignated donations and help pay for expenses and smooth out earnings from year to year. Consistent earnings year after year will allow us to make more meaningful commitments to both WBC & WMRC for long-term support. Additionally these assets will provide FWR with a means of backing its own debts and becoming more independent.

If you're thinking about making a donation, keep the Boathouse Fund at the forefront of your mind. Plans for the boathouse really are moving along nicely and the more capital we've raised before the start of our fundraising campaign, the more effective it will be.

Most of all think about becoming a member. The \$30 contribution is all that is required. Tell your friends and family the great things that FWR is doing and can do with their help. All donations are fully tax deductible.

Travis Moore, '06
Treasurer, Friends of Williamsburg Rowing

Fundraising

Jeweler and parent of a former rower, **William A. Cornock**, has designed rowing jewelry for the William & Mary rowing community. These pieces are beautiful, and specific to William & Mary (for example, the William & Mary cipher with oars). A portion of the profit from each sale is donated to the William & Mary Rowing Club. These pieces make great gifts for students and alumni. Check out their website at:
http://wacornock.com/shopsite_sc/store/html/page17.html

FWR Launch Project

The E-Launch project is officially underway now at the Chickahominy park, just without the electric part. Just this past month FWR with the help of a few WMRC members moved both 26' Stillwater Catamaran launches from where they had been stored at Little Creek Reservoir to the Chickahominy Riverfront Park.

One of the launches is currently being outfitted to run using a 15-hp, 4 stroke outboard motor that was exchanged for one of the Reservoir Runner electric motors. After this boat is equipped it will be put to the test by WBC and WMRC to see how the larger, wake-less launch will perform in the tidal conditions dealt with on the Chickahominy.

How to Help

Donations in any shape or form are always useful. Right now FWR's top priority is to add to the Boathouse Fund, however WMRC and WBC do have other needs, some much more immediate than a boathouse. For example additional Kippy Liddle Kits (life-jackets) improve safety on the water every day and a light bar for the WMRC trailer will actually allow it to be operated legally at night. Right now there is a large need for smaller donations to cover the cost of spare parts and supplies that could be used to outfit the coming storage shed.

WMRC:

- Trailer Light Bar for a Vespoli Trailer - \$325
- Spare Tire for Vespoli Trailer - \$150
- Set of 4 Concept II Oars - \$230 each or \$920
- Set of 8 Vespoli Shoes - \$91.35 each or \$730.80
- 24 Super Bearing Seats - \$38.85 each or \$932.40
- Padded Cover for 8's (2) - \$350 each or \$700

WBC:

- Small Portable Tool Box - \$39.90
- Large Rolling Tool Box - \$329
- General tools - Approximately \$100
- Pitch Meter - \$39
- Rigging Measure - \$55
- Kippy Liddle Safety Kit - \$150
- Shed Fittings (oar racks, work bench, cleaning supplies, hardware, etc) - \$500

If you are interested in helping please fill out the donation form on the last page. If you would like more information on making a gift of stock or gift in kind, please get in touch with Travis Moore, Treasurer at TravisMoore@aol.com.

Finally if your employer has a gift matching program also contact Travis for information on how you can contribute. You can either donate directly to FWR or we can also help you make a direct contribution to WMRC since some employers will match gifts given to educational institutions, but will not match a gift for a sports dedicated 501(c)(3).

Spring 2006 Edition

Page 3

Williamsburg Boat Club

Williamsburg Boat Club had a great winter. Three of our members attended the USRowing annual convention in Baltimore and took the coaching certification courses. One member took a class locally so we now have four members who are certified coaches.

We taught 25 new students how to use the indoor rowing machines. We had a good time working out all winter as a group. Nineteen of these new students rowed on the water for their first time two weeks ago and they impressed all of the experienced rowers. We are having a blast! Our membership has grown to 45. On Saturday, June 10th, we're participating in our 3rd National Learn to Row Day sponsored by USRowing and Concept 2. This event has generated lots of interest for rowing when we've participated the last two years so we expect our membership to grow even more.

Several WBC members attended the Hampton Roads 8th Annual Erg Competition in Virginia Beach on March 18th. Five competed – four for the first time. We came away with three medals – two winners had never competed before.

WBC is holding two youth rowing clinics this summer. Each clinic will take place over two weekends and will be available to boys and girls ages 12-17. We hope this will generate interest among area high schools to add rowing to the list of athletic options for their students.

WBC became a community partner with James City County this year. Not only are they helping us advertise our rowing programs, James City County is going to allow us to build a boathouse on the Gordon's Creek site that we use currently. We are about to begin a fundraising campaign to get funds for this huge project. The WBC boathouse committee visited two boathouses this spring – one in Norfolk and one in Charlottesville. Both boathouses have multiple clubs using them (college, high school and community clubs). The committee will meet soon to work out a plan for a boathouse. We are also trying to raise money for a good, used four.

For information about Williamsburg Boat Club, contact **Mary Lewis** at mqlewis@cox.net or call 757-566-9615.

Missing WMRC Video

Does anyone have a copy of the TV commercial William and Mary Rowing filmed in 1996? The commercial was filmed for Pat Robertson's 700 Club and was broadcast on national television. At the time, the 700 Club gave the team 6 or 7 copies to keep. FWR wants a copy for its archives and there are some alumni who would love to purchase a copy. Please contact Vicki Dyer (757-207-2876; vldyer@gmail.com) if you have a copy or know of where we can get one.

William & Mary Rowing Club

The 2005-2006 season was very successful for the William & Mary Rowing Club. Fall 2005 saw some promising results. All of our crews did well, with some highlights being the Varsity Men's 4+ taking 4th place in the Collegiate 4 at the Head of the Charles Regatta, the Varsity Women's 8+ taking 10th out of 46 entries at the Head of the Schuylkill Regatta and the Novice Women's 8+ winning the Head of the Occoquan while the Novice Men's 8+ and 4+ both took 3rd.

We spent the winter hard at work in our Erg Room in the basement of the Campus Center. Thanks to the 5 new ergs the Recreational Sports Department bought us and the 2 new ergs we purchased ourselves, we had the best winter training yet. For the second year in a row we also took a good portion of the team on a winter training trip. This year we traveled to Tampa, FL. Approximately 30 team members went for a week of training, where we made some major improvements.

This spring the team posted some solid results even before getting back on the water. The men's team took 3rd and 5th in the lightweight event and 3rd in the open men's event at the Mid-Atlantic Erg Sprints. The women did just as well taking 3rd and 5th in the lightweight event and 10th in the open event. Two weeks later at the Hampton Roads Erg Pull we did even better taking 1, 4, 7, and 8th in the Men's event and 1, 2, 5, and 6th in the Women's event.

The spring season came bringing more solid results. Starting off with our annual duel against Virginia Tech, W&M won the Waterfield Cup for the 3rd time in 4 years. Our second race of the season was Occoquan Sprints. Luckily the weather was much better this year, so we actually got to race unlike last year. Our Men's and Women's Novice 8+'s took 2nd in their respective events and the Men's Varsity 8+ took 3rd.

The biggest news this season was our results at SIRAs. The Women's Varsity 4+ and the Women's Novice 8+ both won their events becoming the first crews from W&M to win gold at SIRA. The Novice Men's 8+ was 4th in the B-final, the Varsity Men's 8+ was 1st in the C-final, Men's V4+ was 3rd in the C-final, and the Women's V8+ taking 4th in the C-final.

The Mid-Atlantic Collegiate Crew Championships was another successful race for the Tribe. Men's V8+ takes 2nd, Men's Novice 8+ takes 3rd, while the Women's V8+ takes 2nd, and the Women's Novice 8 wins!

At Dad Vails, our final race of the season, the team stayed strong and again improved our results over last year. The Women's Novice 8+ took 6th out of 32 boats, the Men's Novice 8+ made it into the Semi-finals and the Men's V8+ was one place shy of making it into the Semi-finals. Check out our regatta schedule and come see us race next fall. We can never have too much support!

W & M Rowing Class Notes

Every spring, we send out a call for updates from alumni for a "class notes" section. The updates below are arranged generally in order of graduation year, then alphabetically. A huge thank you to all the alumni who responded to our request for updates. It was terrific to hear from everyone. Anyone who would like to update their contact information, please contact me at billandchristie@comcast.net. – Christie Davis Ashton '00

Ellen Catz Ramsey '91 lives in Charlottesville with her husband **Scott Ramsey '90** and works at the University of Virginia's Health Sciences Library as Learning Resources Manager, and has worked at UVA since 1996. She and Scott were married at W&M in 1994, with Heidi Martell attending the wedding with daughter Molly. She got her master's degree in 2000 from UVA in Higher Education Administration. Scott is an editor at LexisNexis and continues to race bicycles competitively. Ellen still rows when she can, having learned to scull on the Potomac in 1992 at Alexandria Community Rowing/TC Williams, and now keeps a single in the UVA boathouse. Her 3-year-old son, Jasper, doesn't leave me much time for sculling, but he already knows how to make the erg work! Ellen reports that **Kat Flinner '90** lives in Boston with her husband Steve Hoff and their son Nick who was born in 2005. Kat teaches English at the high school level. Kat has taught sculling on the Charles and gets out as often as she can. Ellen writes that "it would be great if some of those really early W&M rowers write in, too—**Beth West '91**, **Vanessa Smith '91**, **Matt Bozorth '91**, **Sean Hart '90**, **Ginger and Beth Krebs '92** and more, I'd love to know what they are all up to!"

Pete Michaud '93 is the Controller for Active Finance Group, LLC (a real estate finance company) in Phoenix, AZ. He is married and has a son, Conor. He and his wife moved to Arizona a year ago to be closer to his wife's family. They just had their first rainfall in 143 days on March 11th. Pete also serves as a Director for FWR.

Bonnie Wilson '94 is living in Alexandria and working at the Arlington County Animal Shelter as a kennel manager. She says she is not currently rowing but wishes she were!

Ray Freson '95 is an attorney with Kelley Drye & Warren and specializes in IT outsourcing and software licensing transactions. He lives in Vienna, VA. His big news is that he is engaged to Nurten Cakar and their wedding will be in Istanbul in September! Congratulations, Ray!

Congrats to **Michael Dowd '96**, who is living in Boston, MA with his wife Margaret - they are expecting their first child in April! He recently became a CFA charterholder and is employed at Martingale Asset Management, where he writes computer programs to construct and analyze stock portfolios.

Class Notes (continued)

Kyle Stier '98 is finishing up his residency in Physical Medicine and Rehabilitation at UMDNJ-New Jersey Medical School and will be graduating June 30, 2006. After that he will be starting a job at Princeton Orthopedic Associates in Princeton, NJ. Christy and he are still in Bedminster but will be moving to the Princeton area sometime in the next year or so.

Nate Stump '99 is working as a trial lawyer with Pepper Hamilton LLP in Washington, DC. He and his wife Monica have two kids, Meredith (3½ years old) and Jonathan (1½ years old).

Christie Davis Ashton '00 and her husband **Bill Ashton '01** are currently living in Marietta, GA (a suburb of Atlanta). Bill is working as a software engineer for Lockheed Martin on the F-22 fighter jet and finishing his Masters degree in software engineering. Christie continues to work part-time as a CPA and began studying for a Masters of divinity degree at Columbia Theological Seminary (in Decatur, GA) this past summer. They are excited to announce the birth of their son William ("Liam") who was born March 5, 2006.

Betsy Holt '00 is currently finishing the tail end of a two year clerkship on the North Carolina Court of Appeals, and this summer she will start a one year clerkship for Justice Mark Martin on the North Carolina Supreme Court. She recently moved from Chapel Hill to Raleigh.

Stephanie Simon Appleman '01 wrote in with updates on several alums. Stephanie married Greg Appleman on May 29, 2005. They live in Arlington, VA, 2 blocks away from the Arlington Cinema Drafthouse. Stephanie is halfway through her intern year of Pediatrics residency at INOVA Fairfax Hospital and is loving it. She still sees **Junior Sterling '01** all the time, and writes that "he's still crazy and fun as usual." Junior writes that he has joined match.com and "even with this amazing resource, I am still unable to understand females." Junior was in Stephanie's wedding, as was **Tycie Young '01**. Tycie and **Adam Horsley '01** are getting married this August. Once Tycie is done with her master's degree this summer, she'll likely move down to Charlottesville while Adam finishes his last year of law school.

Rob and Lucy (Hansen) Durham '01 are currently living in Richmond, VA but are soon to make the move out to Salt Lake City, Utah where Lucy will begin a pediatrics residency at Primary Children's Hospital. Rob says that Lucy is heading out there at the end of May and he will follow in mid-June once his school is out. Rob will be looking for a teaching job in Salt Lake this summer.

Spring 2006 Edition

Page 5

Class Notes (continued)

Erika Wahle '01 wrote that she is once again racing for Occoquan Boat Club, both in a single and with a four. Her four went to Head of the Charles and placed 9th in the Women's Club 4. Outside of rowing – she is living in Centreville, VA, and works for Lockheed Martin as a Database Administrator.

Congratulations and best wishes to **Meghan Carey '02** and **Travis Nels '02**, who are getting married this summer. Travis is currently in the US Air Force, stationed in Geilenkirchen, Germany. Meghan will move there from Alexandria, VA after finishing this school year teaching in Alexandria at Browne Academy.

Kathleen Dumm '02 has been working in Shanghai for almost three years at an international school located inside the Shanghai Zoo. The only thing related to rowing she has done since graduation is trying out dragon boat racing out in Shanghai - not as much fun! In September she will be leaving Shanghai (very sad) for New York City, where she will attend Bank Street College of Education studying Early Childhood and Special Education. Only a few more months out in Shanghai if you want to visit!

Marisa Guarinello '02 will begin her first season coaching for TC Williams HS girls crew this spring and will also continue coaching a masters sweep team in Alexandria, VA. She still works for EPA's Superfund Program in the HQ office in Crystal City and lives in Alexandria.

Dan Hodapp '03 lives in Arlington and works at The Nature Conservancy doing fundraising for work in British Columbia's Great Bear Rainforest. He still keeps in touch with many friends from the team and loves hearing from those he hasn't seen in a while! Dan reports on several other alumni: **Brad Parks '03** married Sarah South (W&M '03) this past summer in Williamsburg and now works for the Millenium Challenge Corporation. He and Sarah live in Arlington, Virginia. **Janine Ladislaw '03** is studying for her Ph.D. at University of Pennsylvania. She lives in Philadelphia. **Ryan King '03** is living in Washington D.C. and working for the Gerson Lehrman Group. He is also attending the Elliott School of International Affairs at George Washington University. **Ethan Munzinger '03** is in Medical School at the University of Missouri. **Frannie Ames '03** is living in Washington D.C. and working at Cornerstone Research.

Randal Ruilova '03 is still working for Ferguson Enterprises as an Operations Manager in the Philadelphia branch. He writes that he recently bought a townhouse in East Coventry, PA. It's about 1/2 hour from Boathouse Row, so any rowers or alumni are welcome. "Long hours at work and other commitments leave me distant from crew, but I would love to make it to a couple races. Good luck Tribe!"

Class Notes (continued)

Vicki Dyer '04 (FWR's diligent secretary) is in her second year of working for Accenture as a consultant. She currently lives in Arlington, VA, but is planning on moving to the west coast (the Bay Area of California) within the next year.

Matt Fiordaliso '04 has been working in New York City for the past 8 months with Wachovia Securities and now lives on 73rd and 1st in the Upper East Side section of Manhattan. He is currently not involved with rowing, though he did enjoy rowing in a 4+ alumni crew at Occoquan Chase.

Jillian Baker '05 coached novices for an adult and a high school program in Woodbridge, VA during the summer and fall, then packed up and moved to Edinburgh, Scotland to work and travel for six months. She's been doing temporary childcare work ("not exactly my ideal career"), but has found a local university team to row with on Saturdays and will be racing on the Royal Henley course in London in early March. Once she gets back to the US she'll be volunteering for three months on a farm in Perryville, Arkansas that's owned by the nonprofit group Heifer International.

Will Cornock '05 moved back to New Jersey after graduation and currently works for PricewaterhouseCoopers. He also serves as the President of Friends of Williamsburg Rowing, and notes the new position does not interfere with his streak of 300 days without having to wakeup at 5am for rowing related activities. Having said that, if you feel the need to donate time/money/effort/Tribe Pride to the FWR before 5am, please break the streak by calling 973-809-8097.

Anna-Coleman Prewitt '05 is now living in Alexandria, VA and working for a direct mailing company. Cole lives with **Anthea Medyn '05** who works in the education program at the American Institutes for Research in Washington DC. Anthea is also coaching the Bishop O'Connell High School's freshman girls' crew team.

Katie Sprinkel '05 has been on the move. She worked a few jobs in Williamsburg (scribe at hospital, server at Berrets Restaurant, catering) then began traveling in February, 2006 for 6 months. She was in Guatemala for a month at a language school/working in clinics and will travel through Central and South America before continuing to South Africa, New Zealand, and Southeast Asia. She writes that she will "hopefully (!) get into a medical school this fall and return to VA then."

Chris Lyons '05 moved to DC following graduation and is serving as Senator Wyden's Environmental Legislative Correspondent in the U.S. Senate. He writes that he is "always looking forward to alumni rowing events on the Occoquan!"

Class Notes (continued)

Eileen Tschetter '05 returned home to Northern Virginia after graduation and is currently working for SRA international as an Information Assurance Analyst. Currently, she is working to secure a law enforcement radio network.

Stephen Woodward (Woody) '05 is currently living in Williamsburg working for a contractor. He is a member of the Boathouse Committee for FWR and personally views the construction of the boathouse as a top priority for both the WBC and WMRC in terms of recruitment, boat safety, and the potential development of local high school programs.
